Customers Review

Logistics Optimization

- *Issue:* High freight costs in remote states are eating into margins.
- *Action:* Renegotiate regional 3PL contracts or avoid heavy discounts in high-freight zones.

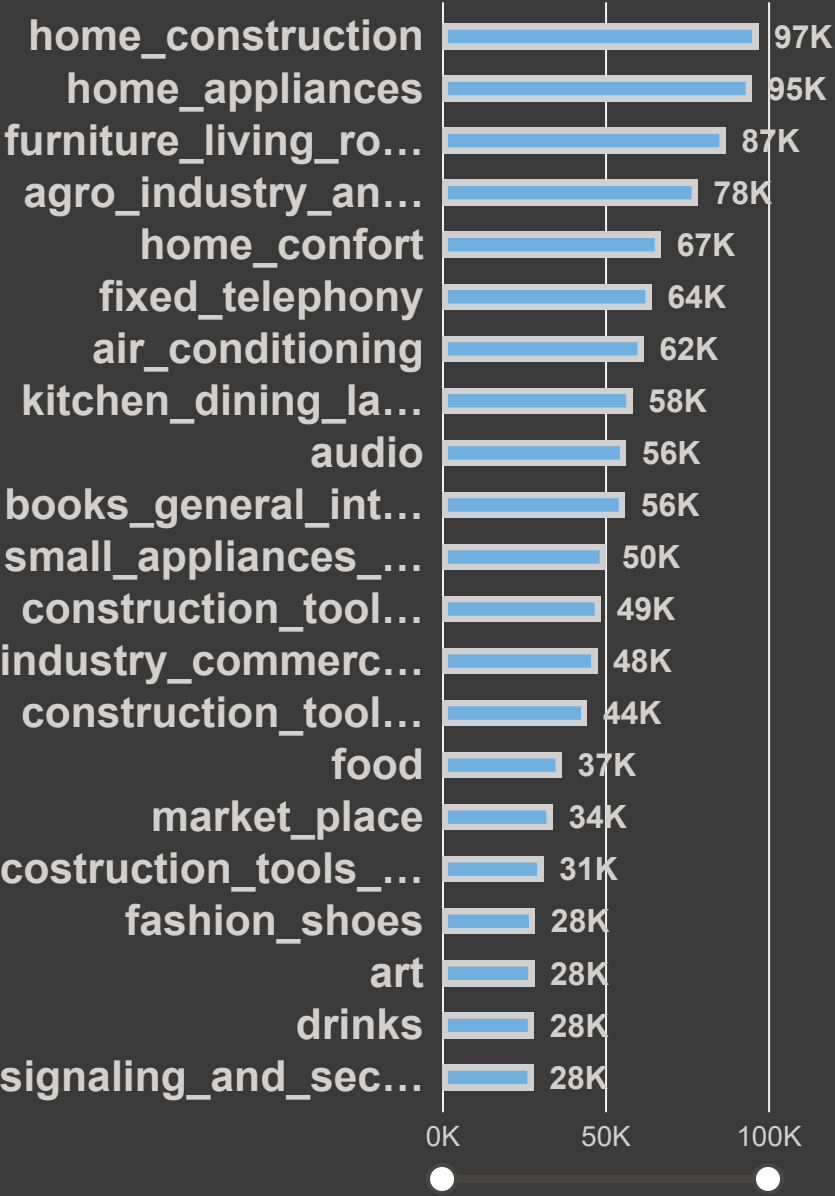

Top High-Freight States

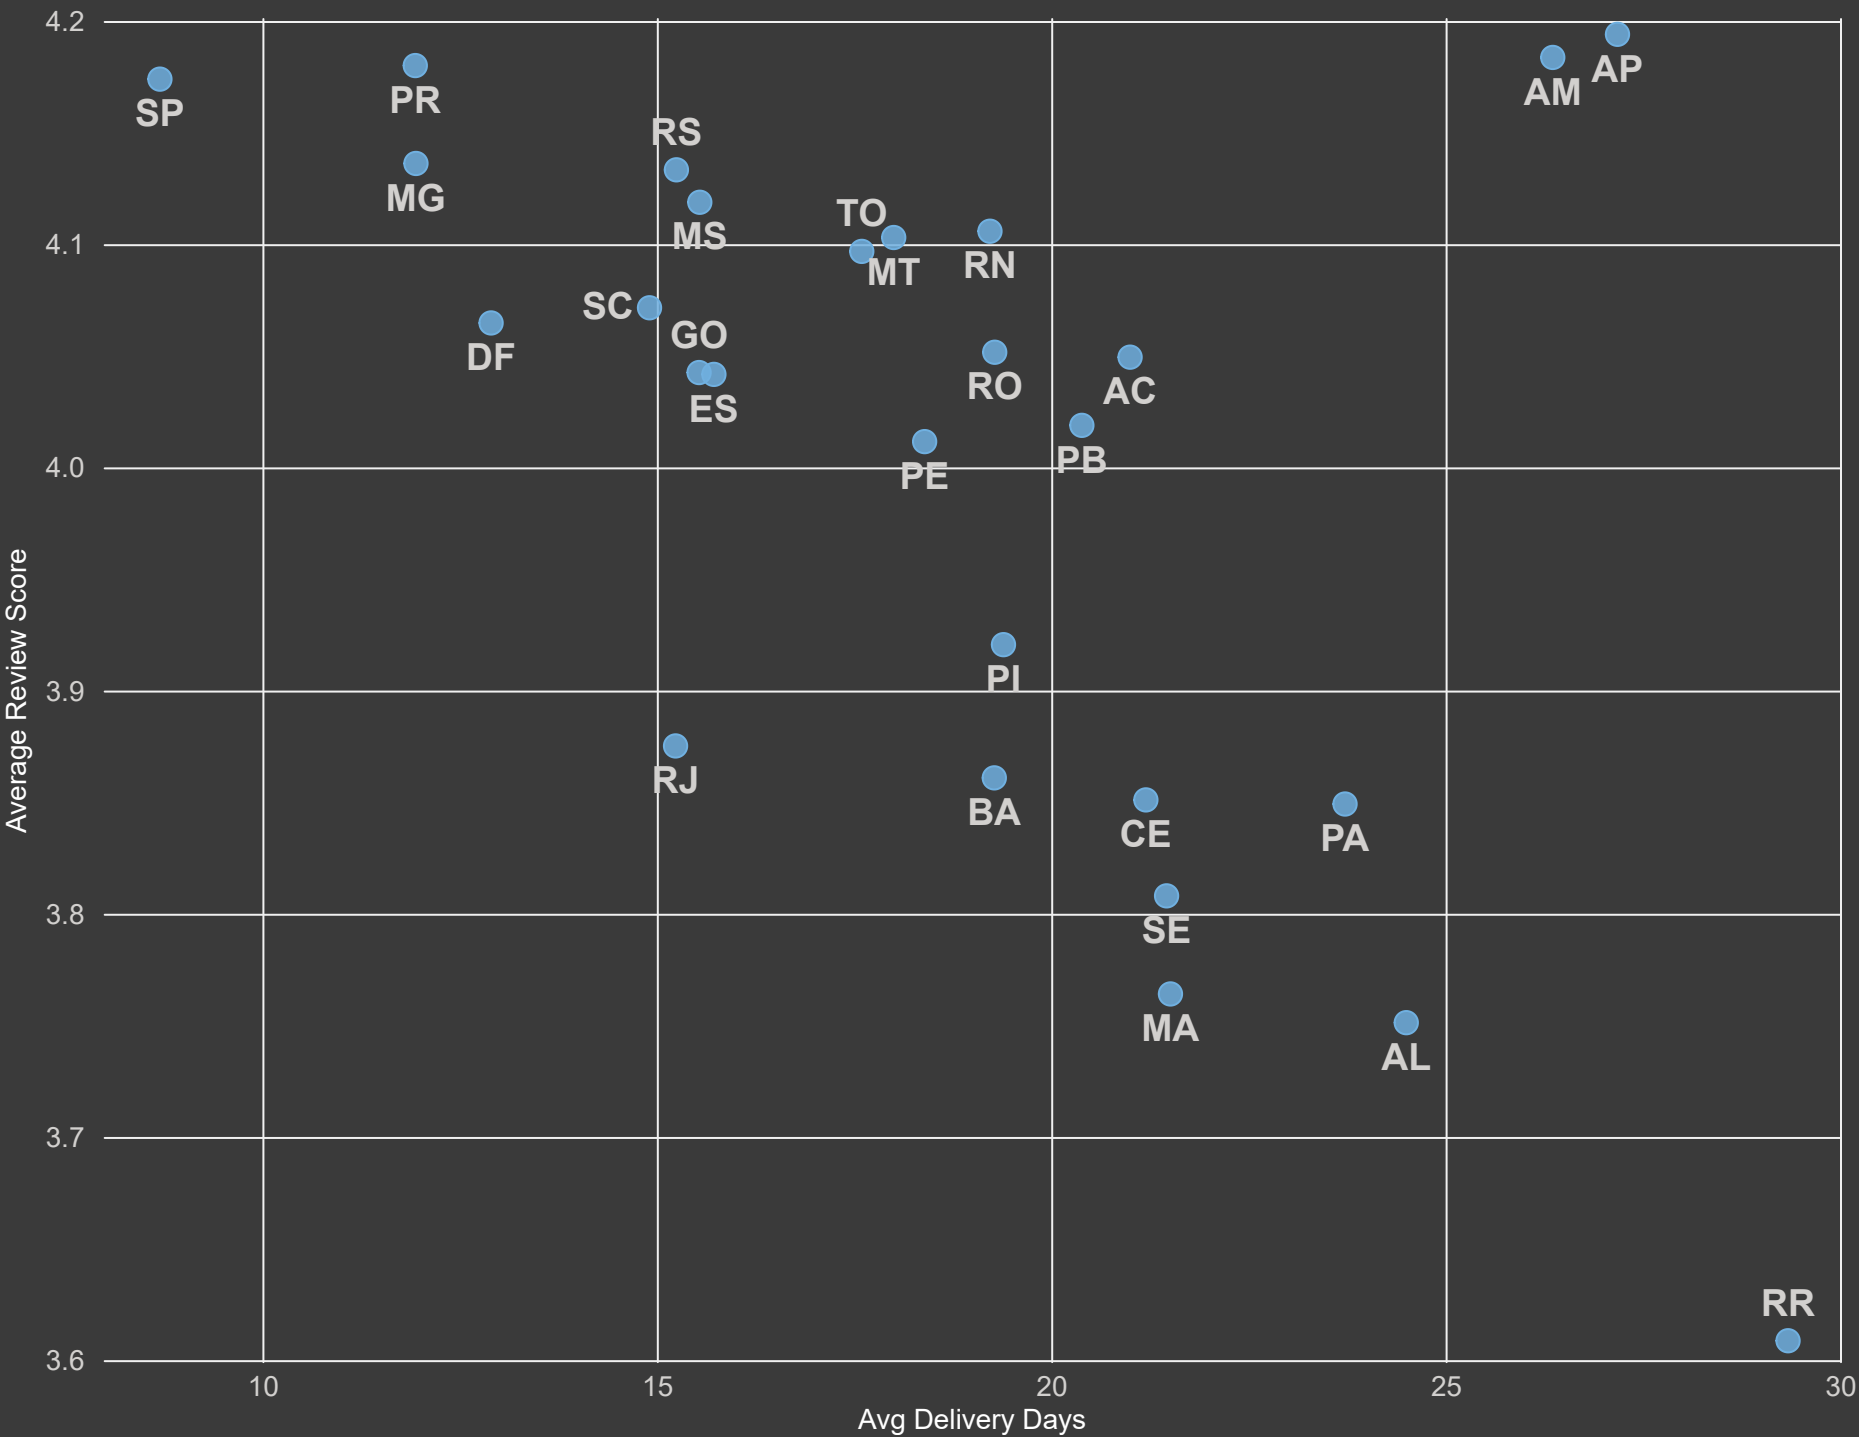

Scale Mid-Tier Products

- *Opportunity:* Categories generating between 0.25M and 1M have strong market traction but are under-resourced compared to top giants.
- *Action:* Allocate targeted ad budgets, run cross-selling bundle campaigns, and feature these products prominently to drive them into high-revenue brackets.

Mid-Tier Product Boost

Avg Delivery Days, Average Review Score, Average_Freight, Total_Revenue and Total_Orders by customer_state

Critical Insight: *Regions facing high logistical delays (X-Axis) directly correlate with sub-3-star average reviews (Y-Axis). Improving supply chain in remote states is crucial to stop customer churn.*
